Python

The python script –

```
#!/usr/bin/python3.6

“””

this is a script to clean up
the files and folders into a nice
and neat folder. You could use this
script as a backup script
 not my script, I got it
from this youtube vid
https://www.youtube.com/
watch?v=COvS9ncnEj4

“””

import os
import shutil

list = []
i = 0
destDir = '/home/mxwil/Desktop/CleanUp'

while os.path.exists(destDir):
destDir += str(i)
i+=1
os.makedirs(destDir)

list = os.listdir('/home/mxwil/Desktop')
for x in list:
print x
if x ==__file__:
continue
shutil.move(x,destDir)
```
